HIS LONG SERVICE AS A REPRESEN-TATIVE AND SENATOR.

Episodes in Congress-His Great Gift of Oratory and Method of Campaigning.

WASHINGTON, April 10 .- Ex-Senator D. W. Voorhees, of Indiana, for a third of a century a picturesque character in American politics, is dead. His life ended at 5 o'clock this morning, in his residence, No. 1005 Maryland avenue, northwest. His death was caused by an attack of angina pectoris. The ex-senator's health was so poor during the recent political campaign that he could not participate in it, but after his return to Washington, in November, he seemed to improve in health. Two weeks ago the old rheumatic trouble returned, and three days ago it became even more alarming, but the senator still did not confine himself to his bed, and his family felt no immediate alarm. It was not, indeed, until half an hour before the final summons came that anyone realized death was near. The senator's son, Reese N Voorhees, had remained in the room with his father during the night and was awakened about 4 o'clock this morning by his father, who was then suffering great pain in the region of the heart. He refused, however, to allow a physician to be called, saying the pain would pass away. Half an hour later he appeared much better and got out of bed to walk to the bathroom, his son being with him. When they entered the hallway the senator was attacked by more severe spasm than he had yet experieaced and fell in a semi-conscious condition into the son's arms. The latter carried the now dying man back to his bed and summoned Dr. Shoup, a neighboring physician. It was too late, however, for any away without regaining full consciousness.

The senator had been so long in public life that building, and all felt an affectionate regard Library building, and as particularly sad that he should not have lived to witness the opening of this institution, which is soon to take place. He had introduced the first resolution looking to the erection of this building, and had watched it rise from the foundation stones with all the pride of a creator. The senator had been in poor health for several years, and for at least two years past had taken little part in the proceedings in the Senate. He had been a constant sufferer from rheumatism of the heart, and his friends therefore had come to expect that they might hear of his death suddenly. The last reports of him, however, were that he was showing some signs of improvement, and his death, therefore, while not entirely unexpected, came with the suddenness of a shock. When he retired from the Senate the "Tall Sycamore of the Wabash," his devoted followers in the Hoosier State, was the ranking Democrat on the finance committee, and by virtue of his position the nominal leader, at least of his party, on the floor of the Senate on tariff and finan- How the News Was Received at His cial questions. It had been known to those who were closest to him that for a half dozen years WASHINGTON, April 10.-Senator Turpie was deeply affected by the death of his friend of nearly half a century. His voice was broken as he talked of his dead political and personal companion, and he could only speak of him colloqually with relation to the past few months. "Senator Voorhees left Terre Haute only two days before the meeting of Congress in December," he said, "and I came on to Washington with him. I joined him at Indianapolis and we journeyed together to Washington. He looked better than he had during the summer or fall preceding, but was still under the care of physicians and taking daily prescriptions. He seemed, however, to be in very cheerful spirits and spoke quite often and with a good deal of interest of public business expected to be transacted at the session of Congress about to commence, though at some times he expressed apprehension that he might not be able to take an active part in the proceedings of the coming session. This fear of his was realized. He did attend the last session of Congress very regularly, and when he entered the chamber he did not remain long. He did, however, a good deal of work and took very great interest in closing the transactions connected with the new Congressional Library. He also spoke often and acted quite vigorously in favor of private bills then pending in behalf of constituents in Indiana. Indeed, I think he took as much interest in legislative procedure as I have ever known him to, and labored therein as constantly as his physical condition would permit. His health continued to seemingly improve during the whole winter months, and the very last

of Congress in March he showed some symptoms of decline and suffering, but the pains were acute, they passed away rapidly. He employed his time in reading cadence so well known in his delivery. The Wednesday night before his death I spent about two hours with him. He talked very cheerfully and seemed to be in high hopes versation was interrupted by pains in his chest. They seemed quite acute, but lasted be in the least apprehensive of unfavorasurrounded by books and papers. He frequently walked about the room and seemed in every way convalescent. Senator Fairbanks was greatly shocked other friends of the late senator, had been decision of the Senate to make suitable Fairbanks spoke in the warmest terms of lovable qualities he had so often heard extolled.
